

# need a more dynamic meeting room?

... the manor house

The newest of our rooms, the de Bono Room is located in what was once the wine cellar.

Bright and funky, it is designed for short, sharp creative thinking sessions and in a short space of time you can get people thinking, behaving and interacting more creatively ... and this energy and enthusiasm can be applied directly to your work and add immediate impact to your meeting.

- Air conditioned.
- The room has 'alternative' seating for 12 but would not usually be used in one of the traditional layouts.

If you would like to shake-up your meeting just ask the Sales Office or Reception for more information about booking this space for all or part of your meeting at The Manor House.
